Description

Eickhorn Bellator knife – a durable outdoor and hunting knife. The new Eickhorn BELLATOR knife is the first SYSTEMA knife developed by Eickhorn Solingen in collaboration with Andreas Weitzel, one of the most popular SYSTEMA trainers. The knife is made of Böhler N695 stainless steel (57-60 HRC) and G10 handle scales.
The handle shape was taken from the Kazakh saber known as the "shashka". The peculiarity of this handle is that it allows for a very comfortable grip, extraction, and application of the knife in one smooth motion. Large screws, a curvature in the middle of the handle, and finger rests make the handle ergonomic and easy to use. This makes this knife great for any activity. It will serve well as a military knife, a hunting knife, an outdoor knife, or a survival knife.
Comes with a Kydex sheath.
Available in two versions – with a regular blade and a partially serrated blade.
Blade Material: Böhler N695
Handle Material: G-10
Overall Length: 23.7 cm
