Description

The design goal for the Venator was to design an optically interesting, legal fixed-blade knife, which has the broadest possible spectrum of use cases. 11.5cm long and 5mm thick blade from Stainless Steel is suitable for almost all tasks required of a robust cutting tool. On request, you can receive the blade with an aggressive partial serration.

The ergonomic handle, with its perfectly shaped finger moulds, offers excellent grip for all incoming tasks, even with gloves.

The Venator is optionally delivered with handles from black G10 or precisely manufactured walnut Rhomlas grips from Mössingen company Karl Nill. The golden-coloured Liners underline the classy appearance of this all-rounder.

We also offer a sheath from high-quality leather in a set with knife. Made in Germany.
