Description

A camouflage winter suit that is perfect for hunting in snowy areas or for any winter operations where it is important to remain unnoticed.

The Multicam Alpine pattern on the suit perfectly camouflages a person in the winter forest and open areas.

This type of camouflage is also recommended for law enforcement agencies. The suit consists of a jacket and trousers and is worn over the main clothing.

The jacket is straight, on a snake, on puffs. The sleeve of the jacket is set-in, one-sutural with an elastic band on the cuff and a fixing elastic band at the elbow.

The hood is stitched, with clamps. Trousers are straight with an elastic waistband and a fixing elastic band at the knee. Drawstring bottoms.

Ultra-lightweight military-style snowsuit comes in a unique design. It is available in one universal size and intended to be worn over your winter clothes to camouflage you in snowy surroundings.

The Camouflage is made of 100% polyester with durable water repellent (DWR) finish. The Multicam Alpine pattern is adopted for its known ability to effectively reduce the visual and near-IR signature of a person operating on snowy terrains.

It is suitable for Hunting, Surveillance, Airsoft, Paintball, Wildlife Photography, Birdwatching, Shooting, Winter Sports.

ORDER CONFIRMATION

Water-repellent material

Winter Camouflage is made of 100% polyester with durable water repellent (DWR) finish on the front face of the fabric, which makes it water-repellent, lightweight, and durable. The DWR helps the fabric shed water and stains. Over a period of time this DWR finish will wear off and needs to be replenished. Refer to Care Tips below for more information.

Multicam Alpine pattern

The adopted winter Multicam Alpine pattern is somewhat grayish, while it is almost white in bright light, with the reflections inherent in Multicam. It works well in the field and the forest and effectively reduces the visual and near-IR signature of a person operating in snow-covered environments.

Large draw-stringed hood

The jacket has a large draw-stringed hood, designed to go over the helmet and a zipper in the front.

Elastic bands and cuffs

The jacket features elastic bands on the elbows for tighter fit, elastic cuffs on the sleeves, and draw-stringed bottom.

Draw-stringed waist

The pants have draw-stringed waist, elastic bands in the area of knees for tighter fit and elastic cuffs on the bottom.

Specifications

- Material: 100% polyester /75g/m2 with DWR finish
- Pattern: Multicam Alpine
- Size: one size
- Worn over winter clothes
- Light
- Does not rustle
- Washes off easily
- Packed in a compact, small pouch with drawstrings
- Jacket length: 31.5 inch
- Jacket width: 29.5 inch
- Pants width: 25.5 inch

- Pants inseam: 33.5 inch
- Package dimensions: (7.9 x 5.1 x 3.9) inch

SET:

- 1 x Jacket
- 1 x Pants
- 1 x Pouch

CARE TIPS

- Polyester fabrics are very durable and you can wash and dry them at home.
- Wash in cool to moderate water temperatures (86 deg.F recommended).
- Do not use bleach, detergent, fabric softener.
- Hang dry or dry in a medium temperature dryer (up to 104 deg.F).
- Remove from dryer and hang promptly to minimize wrinkles.
- You can iron with a presser cloth. Always test first on scraps or out-of-sight parts.
- This Polyester fabric has a durable water repellent (DWR) finish on the front face of the fabric. The DWR helps the fabric shed water and stains. Over a period of time this DWR finish will wear off and needs to be replenished. If your fabric stops beading water on the front face you can replenish this finish with any other DWR protectant in a cleaner and spray on form.
- DWR finish can withstand 3-5 dry cleaning procedures.

Made in Ukraine.
