Description

Defcon 5 Defender Plate Carrier

The **Defcon 5 Defender Plate Carrier** is a high-performance tactical vest designed for professional military, law enforcement, and security operators. Engineered for maximum protection, comfort, and modularity, it offers a robust platform for ballistic plates and mission-critical gear. Its smart design combines **adjustability, durability, and rapid deployment** features that meet the demands of modern operations in diverse environments.

Aim of the Product

The Defender Plate Carrier is developed to provide **optimized protection and mobility** during high-intensity tactical missions. It ensures secure fitting of ballistic plates while offering comfort and ventilation during prolonged use.

ORDER CONFIRMATION

Intended for **military personnel, law enforcement officers, tactical units, and security professionals** requiring reliable ballistic protection and mission adaptability. Also suitable for **training, airsoft, and tactical simulation environments** where professional-grade equipment is needed.

Key Features

- **Emergency drag handle** for quick extraction of the operator in critical situations.
- **Internal padding** on chest, shoulders, and back for improved comfort and weight distribution.
- **Adjustable shoulder and back straps** with hook-and-loop fasteners for a customized fit.
- **Quick release system** on both shoulder straps for emergency doffing.
- **Ballistic plate compartments** located on the chest, back, and sides for optimal protection coverage.
- **Detachable MOLLE panel** with Duraflex clip and hook/loop closure for modular attachment of pouches and accessories.
- Compatible with additional accessories such as **art. D5-322**.

Specifications

Product Type	Tactical Plate Carrier Vest
Weight	1.20 kg
Color	Available in multiple tactical shades
Main Material	High-strength polyester with MOLLE system
Compatibility	Front, rear, and side ballistic plates

Product Use

The Defender Plate Carrier provides an **ergonomic and secure solution** for carrying ballistic armor and mission equipment. Its modular MOLLE system allows operators to configure the vest for different operational requirements. The **quick release mechanism** ensures rapid removal in emergencies, while the adjustable straps and padding deliver a stable, comfortable fit even under heavy load.

Construction & Durability

Constructed with **military-grade materials** and reinforced stitching, this carrier is designed for rugged use in harsh environments. It provides both flexibility and structural stability, maintaining its integrity under prolonged operational stress. The inclusion of **Duraflex hardware** guarantees reliability in demanding tactical scenarios.
