Description

When you have just enough strength for the absolute essentials, you'll be glad you have the double-walled stainless steel food jug in your baggage. Just open the lid, which you can also use as a bowl, and enjoy a hot meal even after it's been there for many hours. Keeps cold food cool for longer. The capacity is 1L, pressure released by a push of a button.

FJ1000ML at a glance:

- Made of high-quality stainless steel
- Keeps food hot or cold for a particular long time
- Closure with pressure release button
- Lid can be used as bowl
- Powder-coated for a good grip
- BPA-free

Esbit products have been used for ages for heating up and cooking food and drink, and so we thought it would be a good thing to offer products for keeping food hot too. Two points were particularly important to us in the

development of this food jug: The lid can also be used as a bowl, and the cap can be opened very easily even if the jug contains very hot foods thanks to the pressure relief valve. The rough surface structure gives a very good grip even in the most slippery conditions. It is something that goes without saying; we also feel that it's something that must be clearly defined. That's why we provide specific information on our packaging and on our website as to how warm the contents will still be after specific periods of time.

FJ1000ML Technical data:

- Water fill temperature: ~ 98 °C
- Ambient temperature: ~ 20 °C ± 2 °C
- Heat retention cap. after 6 h: ~ 75 °C
