Description

ESP Textile Disposable Handcuffs

The **ESP Textile Disposable Handcuffs** feature a unique locking system designed to restrain even very strong individuals securely. With a certified tearing strength of 140 kg, these handcuffs are reliable and effective, offering a lightweight, easily stored alternative to traditional metal handcuffs. The handcuffs are inconspicuous, yet highly durable, and have been patented in the USA and Europe. Widely used by the Czech and Slovak police forces, they demonstrate proven performance in professional applications.

Main Advantages

- **Locking System:** Unique design that ensures strong restraint for maximum security.
- **High Durability:** Made from nylon with a polycarbonate closure,

providing resistance to extreme temperatures without becoming brittle.

- **Compact and Lightweight:** Low weight (approx. 19g) and compact design make them easy to carry and store.
- **One-Time Use:** Once tightened, they can only be removed by cutting with an ESP cutter or similar tool.
- **Strong Resistance:** Pulling resistance tested up to 1400 N.

Specifications

- **Material:** Durable nylon with polycarbonate closure
- **Loop Diameter:** Approx. 12 cm per side
- **Weight:** Approx. 19 g

Usage and Removal

To use, ensure that both loops are tightened firmly without slack. For added security, an additional knot above the polycarbonate closure can be applied. Removal requires an ESP cutter, such as the **ESP HK-02**, or a cutter found in an ESP rescue knife.
