Description

ESP Training Pistol Glock 17 – Silicone Dummy Weapon

The ESP Training Pistol is a highly professional and safe training weapon, designed for self-defense drills and impact techniques. Modeled after the Glock 17, this training pistol is constructed from durable silicone with an integrated steel tube in the barrel area, providing realistic weight and rigidity.

With a bright orange color for easy identification, it significantly reduces the risk of injury during training while preventing damage to wooden floors and training mats. The smooth edges ensure safe contact, making it an ideal tool for law enforcement, security personnel, and martial arts practitioners.

Key Features:

- **Safe Training Replica:** Made from silicone with a reinforced steel barrel to maintain shape and prevent bending.
- **Designed for Contact Training:** Smooth edges reduce injury risk during self-defense and impact technique exercises.
- **High Visibility:** Bright orange color ensures clear distinction from real firearms.
- **Durable Construction:** Prevents damage to floors, mats, and training surfaces.
