Foldable double sided diamond sharpener. The coarse diamond side at 44 micron and the fine diamond side at 25 micron.

Description

Fallkniven FDD – Foldable Double-Sided Diamond Sharpener

The **Fallkniven FDD** is a foldable, two-sided diamond sharpener designed for high-performance knife maintenance. Featuring a fine diamond side (44 microns) and a super fine diamond side (25 microns), this sharpener is perfect for restoring and maintaining razor-sharp edges on modern high-quality knife steels.

Features

- **Double-Sided Design:** One side with fine diamond grit (44 microns) for repairing edge damage, and the other with super fine grit (25 microns) for routine sharpening.
- **Foldable Handles:** Ensures safe sharpening by protecting your hands from accidental cuts.
- **Durable Coating:** The yellow surface is coated with titanium aluminum nitride, significantly extending the sharpener's lifespan.
- **No Lubrication Required:** No oil or water is needed, simplifying the sharpening process.
- **Easy Maintenance:** Clean with hot water and dish soap for long-lasting performance.

ORDER CONFIRMATION

Why Choose the FDD Sharpener?

As knife steels become harder and more durable, sharpening tools need to match these advancements. The diamond surfaces of the FDD sharpener stay flat even after extensive use, ensuring consistent and efficient sharpening over time. It's fast, reliable, and built to handle even the toughest knife steels, making it an essential tool for outdoor enthusiasts and knife collectors alike.

How to Use

1. For edge damage, start with the fine diamond side (44 microns) to repair the edge.
2. Switch to the super fine side (25 microns) for regular edge maintenance and polishing.
3. Sharpen in a consistent, gentle motion, maintaining the blade's original angle.
4. Clean the sharpener with hot water and dish soap after use.

Additional Information

- **Total Length (Folded):** 125 mm
- **Thickness:** 16 mm

Brand Country - Sweden.
