Description

Fallkniven HK6L – Hunter's Knife, 3G Steel

The Fallkniven HK6L is an exclusive hunting knife designed for those who appreciate both functionality and elegance. Crafted with laminated powder steel (3G) featuring a core of SG2, this blade offers exceptional sharpness, strength, and edge retention. This entirely handmade knife combines practical luxury with beautiful design, ensuring it's as functional as it is stunning.

Handle and Sheath

The maroon micarta handle provides a comfortable and secure grip, even in challenging conditions. The knife is paired with a premium, deep leather sheath that securely holds the knife without the need for a clasp. This design adheres to Scandinavian knife tradition, allowing the knife to hang vertically and move conveniently out of the way when sitting down, such as in a car.

The sheath is made of 3 mm thick leather with a robust seam liner, maintaining its shape over time. To care for the sheath, keep it clean and dry, and optionally apply a small amount of shoe wax to the surface. Avoid using grease, as it may soften the leather. For those seeking a 100% waterproof solution, the F1 zytel sheath (F1ez) is compatible with the HK6 knife.

Blade Features

The HK6L blade is made from 3G laminated powder steel, known for its durability and exceptional edge retention. The convex edge design enhances

its cutting performance, making it an ideal choice for hunting and outdoor use.

Practical Luxury

While the HK6L is undoubtedly an elegant knife, it is built to be used. Whether you're processing game or performing other outdoor tasks, this knife's craftsmanship ensures reliability and functionality in every cut.
