Description

A lot has happened behind the scenes around this folding knife, but the aim has always been the same - to produce a folding knife with a sensible size and attractive design. Since we have sold folding knives for a long time we wanted to use that experience and make a knife that was practical, attractive and reliable. The P folder was born. From start with a blade in solid VG10, nowadays with a blade in laminated powder steel, our famous 3G stainless steel. The P folder is easy to clean since the back of the handle is open, something that makes it very suitable for hunting purposes. All models come with a black cordura sheath, which attaches to the belt. In general, a folding knife can never be as strong as a sheath knife, and since it is the result of several hundred different work operations, it must of course be more expensive to manufacture. On the other hand it is a handy format and acceptable in many situations.

Inspired by the world famous knifemaker R.W. Loveless, mod. P is a symbiosis between advanced technology, genuine handicraft and timeless design - a knife for the modern hunter. Today available with a handle in desert ironwood or hi-tech carbon fiber.

Steel	3G
Hardness (HRC)	62
Edge	Flat ground
Handle material	Desert Ironwood
Sheath	Cordura
Weight, knife only (g)	75
Blade length (mm)	77
Blade thickness (mm)	3
