Description

Fallkniven PC Folding Knife

The Fallkniven PC is a lightweight, modern folding knife packed with exceptional features. Its blade, crafted from laminated CoS steel (Cobalt Special Steel), ensures outstanding edge retention, even under heavy use. Designed as an EDC (Every Day Carry) knife, the PC is built for everyday tasks with durability and practicality in mind.

The blade locking mechanism is robust and reliable, offering safety in all situations. This thoughtfully constructed system not only enhances security but also makes cleaning the knife straightforward. Simply rinse the knife with warm water and let it dry - no lubrication is required, as oil might attract dust and debris, increasing wear.

The reinforced fiberglass Grilon handle, featuring an internal stainless steel frame, adds to the knife's strength and resilience. Despite its sturdiness, the knife weighs just 66 grams, making it easy to carry in a pocket and simple to clean when necessary.

This is a true EDC knife, combining premium materials and innovative design for everyday utility. It's an ideal choice for those seeking a reliable, high-quality folding knife.
