Professional Hunter's Knife,
3G Steel

Description

Fallkniven PHKz Professional Hunter's Knife, 3G Steel

The **Fallkniven Professional Hunter's Knife (PHK)** is one of the best hunting knives in the world. Hunting leaves little room for error when function, safety, and hygiene are top priorities. The special blade design, called an **upsweep-drop point**, offers an effective skinning edge yet without the problems common to wide-bladed dedicated skinning knives.

The **3G stainless laminate powder steel (VG2-SGPS-VG2)** offers a blade that is incredibly strong and keeps a sharp edge extremely well. The combination of a **thermorun handle** and a stainless steel crossguard makes this knife both safer to use and comfortable for long and hard game processing work.

The Fallkniven Professional Hunter's Knife comes with an injection-molded **zytel sheath**, offering a functional, safe, and strong combination of qualities for carrying the knife. The heavy-duty zytel plastic design is hygienic, easy to clean, and securely contains the knife with both friction retention and a webbing snap loop.
