Description

Fallkniven Taiga Hunter Knife, Lam. CoS Steel

The Taiga Hunter (TH1) is a handmade masterpiece featuring a blade crafted from laminated cobalt steel and a handle made from the exclusive desert ironwood (lat. Olneya tesota). These knives are individually numbered on the blade spine, making each one a unique collector's item and a reliable tool for demanding users.

Desert ironwood is a highly durable material known for its density and beauty. With a density of 1.2 kg/dm³, this wood is heavier than water and sinks. Each handle has a unique pattern and color, adding a personalized touch to every knife. To maintain the luster of the handle, treat it with wood oils containing linseed oil.

Features

- Blade: Laminated cobalt steel (Lam. CoS) for exceptional strength and edge retention.
- Edge: Convex grind for superior sharpness and durability.
- Tang: Full tang construction ensures strength and balance.
- Handle: Made from natural desert ironwood, each handle is unique in texture and color.
- Sheath: Durable Zytel sheath with a secure locking mechanism that performs in all weather conditions.

About the Taiga Series

The Taiga knives are designed for hunters and outdoor enthusiasts who demand the best in performance and reliability. The ergonomic handle provides a secure grip in all conditions, while the laminated cobalt steel blade retains its sharpness even under heavy use. The convex edge ensures that the knife is both strong and razor-sharp.

Secure Sheath Design

The included Zytel sheath features a specially designed locking system that securely holds the knife in place. This system ensures reliable function in all environments, whether it's windy, sandy, snowy, or wet.

Additional Information

• Steel: Lam. CoS • Hardness (HRC): 60

• Weight (Knife Only): 149 q

• Blade Length: 84 mm • Blade Thickness: 4.5 mm • Total Length: 188 mm

• Handle Material: Desert Ironwood

• Sheath: Zytel

• Finger Guard: Stainless Steel

Care Instructions

To keep your knife in pristine condition, clean the blade and handle regularly with a mild soap and warm water. Apply wood oil containing linseed oil to the handle to enhance its natural luster and durability. Brand Country - Sweden.
