Description

Fallkniven Ulic Folding Knife, Elmax Steel

The Fallkniven Ulic is a unique folding knife that combines modern Elmax steel technology with a timeless, century-old folding knife design. Featuring a handle crafted from stunning desert ironwood, this knife is as visually appealing as it is functional.

The U1 lacks a blade lock, instead relying on a traditional spring steel key to secure the blade in place. This classic technique has been used for over a century and ensures that the blade remains steady during use. As a result, in many countries, the U1 is classified as a pocket knife and is permissible for carry in public spaces, with some exceptions such as restaurants, sports arenas, and school grounds.

The blade, made from Swedish Elmax powder steel, offers exceptional edge retention. Dual nail nicks on both sides of the blade make this knife symmetrical, ensuring ease of use for both left-handed and right-handed individuals. The knife is delivered with a slimfit black Cordura sheath for secure and convenient storage.

Additional Information

- **Blade steel:** Elmax
