Description

Fallkniven U2 Folder, Elmax Steel

The Fallkniven U2 is one of the most popular folding knives, now featuring a blade crafted from Swedish Elmax powder steel. This steel is renowned for its exceptional strength and outstanding edge retention, making it a favorite among knife enthusiasts. Working with powder steel is challenging and requires advanced technology combined with skilled craftsmanship, but the result is a knife of unmatched quality and performance.

The U2's slim handle is constructed from durable Grilon composite material, ensuring the knife is lightweight and comfortable to carry. The symmetrical blade grooves on both sides make this knife suitable for both right-handed and left-handed users. The traditional lock-back mechanism provides reliable blade locking with a distinct and secure click.

Additional Information

- **Steel:** Elmax
- **Hardness (HRC):** 61-62
- **Edge:** Flat ground
- **Handle Material:** Grilon
- **Weight (knife only):** 45 g
