Description

Fallkniven U2 Folder, Lam. SGPS Steel

The Fallkniven U2 is a groundbreaking folding knife featuring the world's first blade made from laminated Super Gold Powder Steel (SGPS). This market innovation provides unmatched edge retention, setting a new standard for knife performance. Powder steel is both expensive and challenging to work with, requiring a combination of advanced technology and skilled craftsmanship to achieve perfection.

The U2's slim handle is made from durable Grilon composite material, ensuring the knife is lightweight and comfortable to carry. With symmetrical blade grooves on both sides, the U2 is equally convenient for right-handed and left-handed users. The traditional lock-back mechanism reliably secures the blade in its open position with a distinct and satisfying click.

Additional Information

- **Steel:** Lam. SGPS
- **Hardness (HRC):** 62
- **Edge:** Flat ground
- **Handle Material:** Grilon
- **Weight (knife only):** 45 g
