### Description

#### **Fallkniven U2ce - Cetus Folding Knife, Collector's Version for 2024, Lam. SGPS Steel**

The Fallkniven U2ce, the collector's edition for 2024, is a refined version of the iconic U2 folding knife. This special edition features the Cetus constellation laser engraved on the right side of the blade, making it a must-have for collectors and astronomy enthusiasts alike. The U2ce continues the legacy of being the first folding knife in the world to use laminated powder steel (SGPS) since its introduction in 2004, a testament to its superior sharpness and durability.

Over the years, Fallkniven has released limited editions of the U2 knife with various constellations, adding a unique celestial charm to this lightweight and extremely sharp folding knife. The Cetus (Cetus), a large and prominent constellation in the southern celestial hemisphere, symbolizes strength and grandeur, perfectly aligning with the knife's exceptional craftsmanship.

The knife's slim Grilon handle ensures a lightweight and comfortable grip, while the traditional lock-back mechanism provides secure blade locking. The U2ce is not only a functional tool but also a collector's item, celebrating the beauty of the night sky.
