Description

It is black and it is robust. The Petromax Fire Pot is completely made of grey cast iron of excellent quality. Also known as 'Dutch Oven', the Petromax Fire Pot is ideal for cooking outdoors or in your home oven. Its special features are the excellent heat transfer and storage of heat over a long period and the extreme ruggedness of the pot. The ideal companion for your camping, outdoor and recreational activities. Use it to cook food, such as meat and vegetables, very gently in their own juice over a fire or in the oven. The lid of the fire pot can also optionally be used as serving dish or pan. Thanks to the pretreated surface (seasoned finished) you can use the robust Petromax Feuertopf of cast iron immediately.
