## Usage & Training

The Chiroptera is designed for users trained in Karambit manipulation. Its unique curvature and ergonomic geometry demand muscle memory and precision handling. Ideal for professional use in defensive tactics, martial arts, and tactical environments.

## Glossary

- Karambit: Curved-blade knife originating from Southeast Asia, used for control, slicing, and retention.
- N690Co: Austrian stainless steel enriched with cobalt, providing toughness and edge retention.
- Top Shield® Coating: Advanced anti-corrosion finish with matte tactical appearance.
- G10: Composite fiberglass laminate offering excellent grip and structural strength.
- Back Ring: Traditional Karambit feature allowing rotation and retention during combat applications.
