Description

Since many customers could not decide between the uncompromising blade of the E.R.T. Rescue that is specially made for rescue use and the pointed blade of the E.R.T. standard model, FKMD has designed the sheepfoot version with a rounded blade tip as an effective compromise. Still able to cut, with partially serrated edge, but without the potential dangers of the point, the new blade with shackle key clearly offers an alternative. And here the impressive strength of the 5 mm blade emphasises its use in rescue operations. Luminescent insert in the handle, ~~N690~~ blade steel. Plastic sheath with Molle clip and car holder. Knife with clip.

Type:	Pocket Knife
Total Length:	20,0
Blade Length:	7,5
Blade Thickness:	5,0
Weight:	155,0 g
Blade Material:	N690
