Description

Based on the shape of a Philippine slasher, a design that has proven itself over the course of centuries, the modern shape of the Panabas makes it an effective companion for all heavy-duty outdoor activities. The front-heavy blade and the bellied edge play out their full capabilities primarily for slashing and hacking. The 6 mm [N690](#) blade and the multi-functional codura sheath (MOLLE compatible) contribute toward its field utility as much as the proven forprene grip. With lanyard hole and additional eyelets to attach a safety lanyard. Includes a large survival-kit in a separate pouch, which can be attached to the sheath.
