Description

Lightweight footwear, versatile and breathable, for dynamic use on terrain of medium difficulty. The shoe upper is made up of two structures: an external one in suede with independent features which wrap around the foot anatomically and support the anatomy of the foot.

Features

- GORE-TEX® waterproof/breathable membranes let feet breathe while protecting them from wet weather, keeping them dry and comfortable
- Split-grain suede leather and breathable Air 8000 fabric uppers are contoured to fit the shape of your feet, providing support without excess weight or bulk
- Elica Fit technology allows your feet to move through their natural range of motion, providing enhanced comfort and reduced fatigue and foot strain
- Fit follows the anatomic shape of the soles of your feet, allowing normal heel and forefoot positioning for comfort and control
- Gusseted tongues keep out trail debris and use soft materials to provide a smooth transition across your insteps for all-day comfort
- Collars offers a snug fit that keeps pebbles, debris and drizzle out
- Integrated rubber toe caps provide durable protection from roots and rocks
- IMS3 chassis combined with welded PU exoskeletons and injected EVA
