Description

AKU Flyrock T GTX Tactical Lightweight Multi-Utility Shoes

Lightweight, breathable, and built for demanding use. The **AKU Flyrock T GTX** is a versatile multi-utility tactical shoe designed for **training, range work, ward duty, and in-camp activities**. Combining lightweight comfort with durability, this shoe offers superior traction, flexibility, and waterproof protection for professionals in law enforcement, security, and armed forces roles.

Performance & Comfort

The **Vibram® Flight Traction Lug outsole with Megagrip compound** provides outstanding grip and control on multiple surfaces – from road and gravel to vehicle decks and rocky terrain. Its **High Cushion, High Rebound EVA midsole** delivers exceptional shock absorption and rebound, ensuring comfort even during long hours on duty. The **Dynamic Fit technology** automatically adapts heel tension to your stride, improving balance and reducing fatigue.

Purpose-Built for Operational Environments

Designed for versatility and performance in varied tactical conditions, the **Flyrock T GTX** is ideal for **daily training, driving, range sessions, and operational mobility**. The robust yet flexible upper withstands intense activity such as crawling, climbing, kneeling, or quick transitions between surfaces – maintaining comfort in temperatures from **0°C to +35°C**.

Elica Natural Stride System

AKU's Elica Natural Stride System optimizes biodynamic efficiency by aligning the sole and midsole with the natural anatomy of the foot for smoother, more balanced movement. The system promotes better weight distribution and reduces impact stress during prolonged use.

- **Support Phase:** The insole tilts outward to accommodate heel support, with enhanced shock absorption on the external heel and distributed impact across the forefoot.
- **Push Phase:** The insole tilts inward for optimal forefoot leverage, ensuring a stable, natural push-off with increased contact area for traction.

Learn more in the official [Elica Technology Video](#).

Technical Specifications

Upper	Textile + Welded PU Film
Upper Protection	Welded PU Film
Lining	GORE-TEX® Most Breathable
Outsole	Vibram® Flight Traction Lug Megagrip
Midsole	High Cushion & High Rebound EVA
Lasting Board (Stiffness)	2.0 mm Polypropylene + Die Cut EVA (Flexible)
Footbed	Ortholite® Hybrid Partially Recycled
Weight (½ Pair)	372 g
Size Range (UK)	3 - 13

Operational Environment

Intended for **internal security, military training, and general in-camp use**. Activities may include walking, running, climbing, vehicle operation, and range practice. Designed for performance across **mixed terrains** - roads, vehicle parks, tracks, rubble, metal floors, and office surfaces.

Traceability

AKU ensures full transparency in material sourcing. The Flyrock T GTX is manufactured in **Vietnam** using globally sourced components:

Synthetic Upper Material	China, Vietnam
Synthetic Lining Material	Germany, China
Outsole	China
Midsole	Vietnam
Footbed	Vietnam

Why Choose the AKU Flyrock T GTX?

- **GORE-TEX® Most Breathable** lining for durable waterproof protection
- **Vibram® Megagrip outsole** for superior traction on all surfaces
- **Dynamic Fit System** adapts naturally to movement
- **Elica Natural Stride System** for biomechanical efficiency and comfort
- **Lightweight yet durable** construction ideal for tactical and training environments

Glossary

- **GORE-TEX® Most Breathable:** Advanced waterproof membrane offering maximum ventilation and moisture control for warm conditions.
- **Vibram® Megagrip:** High-performance rubber compound for outstanding grip on wet or dry surfaces.
- **Dynamic Fit:** AKU system that dynamically adjusts heel tension according to stride movement.
- **Elica Natural Stride System:** Sole construction engineered for natural alignment and reduced fatigue during walking or running.
