Description

The original, 100% waterproof, windproof & breathable mid length sock. The inner lining is crafted from fine Merino Wool to insulate and regulate temperature making this perfect for use in colder weather conditions.

- Waterproof - three layer construction for warmth, durability and waterproofing
- Comfort - Merino wool lining for moisture control, insulation and comfort
- Support - zonal elastication for added support
- Close fit - four way stretch for comfort and stretch fit
- Comfort - flat toe seams prevent rubbing
- Comfort - Footbed padding reduces pressure and absorbs shock

Materials:

- Outer: OUTER: 90% Nylon, 10% Elastane
- Membrane: Hydrophilic Membrane
- Inner: INNER: 35% Merino wool, 35% Acrylic, 23% Polyester, 3.5% Elastane, 3.5% Nylon

About Merino wool: Finer than traditional wool with tiny overlapping scales that case each fibre, these scales are hydrophobic (water repellent).

Inside it's a different story, the fibre core is hydrophilic (highly absorbant). Merino is therefore a wicking fibre and can absorb and release 10 times more moisture than synthetics. Each fibre can absorb up to one third of its own weight in moisture without feeling clammy or wet to the touch. In our socks and gloves, the moisture is then wicked through the membrane to keep you feeling warm and dry.

Technologies in the sock:

- The perfect barrier between you and the most challenging wet weather. Our products are developed in such a way as to give 100% waterproof protection whilst being incredibly breathable and dexterous. Add in varying layers of insulation means we can offer waterproof products for all climates.
- Anti-blister preventing padding and flat seams

- Breathable membrane and construction fo the sock
