Description

High quality smooth creamy wax that waterproofs and conditions all smooth leathers. Available in Neutral, Brown to suit leather, in long lasting 100ml aluminium tins.

Apply to clean leather. Rub sparingly into the surface with a cloth.

Leather like skin can dry out and crack over time when not cared for. Maintaining clean and cared for leather ensures fit and protection is maintained. Our leather cream is a soft water based cream that maintains the suppleness of the main body of the leather and adds a layer of weather protection to the outer surface.
