Description

Fox Sparrow – folding EDC knife. 9Cr13MoV steel was used for the production of the blade, and the handle of the knife is made of aluminum with blue anodization. Fixation of the folding blade is carried out with the help of a Liner-Lock type lock, and for the extraction of the blade with a Spear-Point type profile, a finger hole is provided. Equipped with clip for pocket or belt.

The blade is made of 9Cr13MoV steel – this is an ideal option for inexpensive everyday knives. The steel does not produce any supernatural indicators, but for its price it shows very good characteristics. This alloy is excellent against corrosion, shows good wear resistance and cuts. In general, its properties are close to 420HC and it has a hardening hardness of up to 58 HRC

The handle is made of aluminum. Aviation aluminum. 6061 T-6 Aluminum is an aluminum alloy used in aviation, which is also popular as a raw material for the handles of pocket knives. It has excellent strength and
