Description

Sparrow Brown Anodized Aluminum, Sand Blasted lightweight E.D.C. folder from Italian brand FoxEdge. The design by respected Italian knifemaker Denis Simonutti combines hard to beat value for money and functionality.

9Cr13MoV - shortened name (9Cr13). Martensitic tool stainless steel. A high content of 13.5% chromium (Cr) and 0.85% carbon (C) provide high corrosion resistance, while the addition of the alloying elements manganese 1.0% (Mn), silicon 1.0% (Si) and cobalt 1.0% (Co) increase the strength and hardness of the steel. The hardness of 9Cr13 can range from 60-62 HRC, depending on the manufacturer. Easy to sharpen, widely used in the manufacture of knives, scissors and medical equipment.

Blade - Clip Point type, finished with a scratch-masking Sand Blasted finish. The long cutting edge with a clearly marked belly, converges towards the needle-sharp tip of the knife. The thickness of the blade provides high strength while the high, flat grind guarantees excellent cutting properties. Shims are responsible for the smooth and smooth operation of the opening mechanism using the Thumb Hole in the blade. Liner-

Lock Mechanism.

The handle - facings made of brown anodized aluminum, is bolted to a steel backspacer. The simple, secure design gives assurance of many years of use. A fore finger groove improves grip security. The pivot axis is decorated with an old bronze stylized screw. A single-position (right-side) metal deep-carry clip allows you to carry the knife discreetly in your pocket in tip-up position (blade tip up). In the backspacer lanyard hole, a hole for a safety or decorative cord.

Blade Steel: 9Cr13 stainless steel

Hardness: HRC 60-62

Blade Coating: sand blasted

Handle: Bronze anodized Aluminium

Clip: stainless steel

Spacer: stainless steel

Screws: stainless steel

Blade Length: 8 cm

Overall Length: 19 cm

Blade Thickness: 2 mm

Weight: 100 gr

Brand country - Italy.
