Description

A versatile design from Jesper Voxnaes with Elmax stainless steel and Micarta handles.

When open, the flipper tab lines up with a groove for the index finger, providing protection to keep your hand from sliding forward. At the same time, a liner lock keeps the blade from closing when you don't want it to. The Micarta handles have ergonomic form and secure tight grip. A deep-carry wire clip can be set up for right or left-handed carry and keeps the knife in your pocket in a tip-up configuration for ready deployment. The Core can excel in a wide range of applications. It is small enough to carry every day and the open-backed construction makes it easy to keep clean. Outdoorsmen will also appreciate the large belly on the blade while on the hunt or roaming the woods.

- Blade Steel: Elmax stainless steel
- Hardness: HRC 59-61
- Blade Coating: Acid Stone Washed
- Handle: Natural Micarta

Fox Knives

Around 40 years ago Oreste Frati established Fox Coltellerie, which is today known as Fox Knives. After years of experience in production as well as in distribution he founded his business in 1977, which is running as a family business since then. With a great deal of innovation, by constantly testing new materials and techniques, Fox has been one of the leaders on the knife market. Next to manufacturing traditional and elegant knives, the concept of producing tactical knives for police and military is an essential component for Fox Knives. The official certification as a supplier of the NATO shows seriousness, with which Fox is pursuing the lines and making it perfect with the section FMKD. Fox Knives offers for almost every taste and every use the appropriate knife.
