Description

Glock Entrenching Tool – Folding Military Shovel with Saw

The **Glock Entrenching Tool** is a compact, multi-functional field tool designed for professional outdoor, tactical and survival use. Developed using advanced materials and manufacturing standards associated with **Glock**, it delivers durability, reliability and versatility in demanding environments.

Multi-Functional Field Tool

This innovative entrenching tool combines multiple functions into a single compact design. It can be used as a **spade, shovel, hoe, saw and screwdriver**, making it an essential tool for outdoor professionals, military personnel and adventurers.

- **Spade and shovel** for digging and trenching
- **Hoe configuration** for soil work and shaping
- **Integrated saw blade** stored inside the handle
- **Screwdriver tip** for additional utility

Smart and Durable Design

The spade blade is manufactured from **hardened special steel** with a surface treatment that improves durability and corrosion resistance. The

construction is free from welding and rivets, increasing structural strength and long-term reliability.

The tool can be locked in **three different positions**, allowing quick adjustment depending on the task. The telescopic polymer handle provides a secure grip and houses the saw blade when not in use.

Compact and Portable

When folded, the Glock Entrenching Tool becomes highly compact and easy to carry in a backpack, pouch or vehicle. Despite its compact size, it extends to full working length in seconds.

- **Folded length:** approx. 26 cm
- **Extended length:** approx. 64.5 cm

Materials

- **Blade:** Hardened special steel
- **Handle:** High-strength polymer

Specifications

Weight	approx. 657 g
Length (closed)	approx. 26 cm
Length (opened)	approx. 64.5 cm
