Description

The blade is made of carefully selected stainless steel, so the knife remains sharper for longer, and also means it can take a greater load on the blade. The blade is also somewhat bigger, so it can be used in a range of different ways. A solid finger guard makes for safer handling and reduces the risk of work-related injuries. It has an ergonomically designed handle made of TPE rubber, providing optimal friction, while the spindle shape of the handle means the knife always sits right in your hand.

Features

- Blade length: 88 mm
- Total knife length: 203 mm
- Blade thickness: 1,3 mm
- Blade hardness: 56 - 58 HRC

Weight [g]

98
