### Description

TREKKING TACTICAL PANTS® - AeroTech are lightweight outdoor pants that provide comfort and protection when it's hot outside. Their minimalist design will prove useful not only when working with a harness or moving dynamically in the mountains, but also during a bike ride, canoeing or demanding off-road ride. The use of fast-drying and extremely breathable AeroTech fabric makes this version of Trekking Tactical Pants® the best choice for trips in the summer. Long legs with tunnels for cords and reinforced knees with compartments for soft pads guarantee safety in varied terrain. Six pockets are complemented by loops for carabiners or D-Rings, to which you can attach your gloves, minimizing the risk of losing them. An elastic velcro-adjustable waistband with a raised waist on the back increases comfort during activities that require frequent changes of position.

### Features

- Made of Aero-Tech 100% polyester fabric, basis weight 156 g/m<sup>2</sup>
- Elastic waistband with a high waist at the back, fastened with Velcro
- Two loops for carabiners or D-Rings
- A total of six pockets, two of which are hip pockets with reinforced edges
- The leg is profiled at the back
- Reinforcements on the knees with compartments for soft pads
- Tunnels in the hems of the legs for a tape or a drawstring
- YKK® zipper fly
