Description

The Alien Bag is a versatile option for carrying a large amount of gear. The unique opening method of this bag involves four diagonal zippers, which allow the bag to be laid flat. This provides full access to the contents of the bag. The bag's contrasting interior lining makes it easy to organize carried items. The bag's part is filled with soft foam, which makes it perfect for use as a stand-on mat for changing clothes. The bag also comes with a waterproof bag, which is ideal for storing dirty or wet clothing, shoes, and other items. This feature makes the Alien Bag equally useful for activities such as cold water dipping, shooting range visits, training sessions, and as a tactical bag.

The Alien Bag offers three convenient carrying methods. It can be hand-carried using its two handles, slung over the shoulder with a strap, and even worn like a backpack thanks to hidden straps at the bottom of the bag. Its unusual design and name are inspired by the shape of the xenomorph eggs from the iconic film "Alien".

Features:

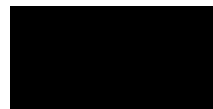

- three carrying methods
- ability to unzip the bag flat
- contrasting interior finish
- waterproof bag included
