Description

Bail Out Bag® or BOB® is a bespoke escape backpack for those always prepared. Whether you're a prepper or survivalist, plain shooter, or you're just on a lookout for a product to organize your vehicular survival items in case your car breaks down in a remote place - the BOB® is all you need. It was designed by the survivalists - who know what's essential and how to carry it. You can attach it to a back of a car seat, where it can hang open without spilling the contents - but allowing fast access to the contents. After detaching from the seat it morphs into a plain, low profile backpack. After fully opening of the pack, you can seat on it or even use it as an improvised sleeping isolation mat. There is also one additional pocket that holds an additional seating mat. The pack also has detachable beavertail, that can be easily transformed into an improvised bag. The beavertail has three integral AR/AK pouches and one pocket that can be used for carrying a handgun via provided Vesatile Insert System®-compatible pistol holder. BOB has four internal mesh pockets for larger items, two cord-adjustable pockets for flask or magazines, that would also hold a poncho, small sleeping bag or a jacket, two zippered pockets for smaller items (food or cooking gear). MOLLE/PALS webbing above them allow attaching of additional items, like tools (knives, saws, small axes) or ammo pouches, med kits or HTX/DA organizer pouches (Navtel®, Admin Pouch®). The backpack holds all survival essentials within quick and easy reach. You can attach a Swagman Roll® or EDC Insert inside the pack. There are two external open top water bottle pockets plus total of two zipper-closed small item pockets. The backpack has ergonomically profiled shoulder straps.
