Description

Gunfighter Women's Jacket is a tactical jacket designed for female uniformed service officers. It has anatomical cuts and does not restrict movement. Used materials ensure the jacket's durability.

2-way zip opens the jacket from the top and bottom for instant access to gear at the waist or in the pockets. It works well in tactical activities, although at first glance it looks like an ordinary outdoor jacket. It's intentional because that allows you to work in the field without drawing unnecessary attention.

The Gunfighter jacket has a hood hidden in the stand-up collar, which protects against wind and light rain, and zippered vents under the arms provide ventilation.

Everyday items can be stored in seven jacket pockets: two on the shoulders, two inside, two side chest pockets, and a zipped pocket on the left forearm.

Features

- ventilation zippers under the arms,
- hook & loop panels on the shoulders,
- 7 pockets, (side and shoulder pockets with cable exits),
- reinforced and profiled elbows,
- hood hidden in the collar.
