#### ORDER CONFIRMATION

- Uses Climashield® Apex $^{\mathbb{M}}$  insulation for high thermal efficiency in military gear.
- · Equipped with durable YKK zippers.
- MultiCam camouflage provides effective concealment across diverse terrain types.

#### Other Useful Information

The Level 7 Jacket offers thicker insulation than lighter Helikon-Tex models such as the Wolfhound, making it suitable for extreme cold or high-moisture environments. Its ultra-lightweight nylon shell provides wind resistance while maintaining breathability. Internal mesh pockets help dry gloves or small gear through body heat, while fleece-lined pockets enhance comfort during prolonged operations.

The globally recognized MultiCam pattern enhances camouflage performance in varied environments and is widely used by military and tactical professionals worldwide. The jacket's construction focuses on mobility, efficiency and reliability in demanding field conditions.

# Glossary of Terms

- ECWCS: Extended Cold Weather Clothing System U.S. military-developed multi-layer cold-weather gear system.
- Climashield® Apex™: High-loft synthetic insulation with strong thermal performance and moisture resistance.
- Ripstop nylon: Reinforced nylon fabric resistant to tearing and abrasion.
- MultiCam: Adaptive camouflage pattern optimized for open and mixedterrain concealment.
- YKK: Industry-leading manufacturer of high-quality zippers.
