Description

The Reversible Swagman Roll® combines the features of a blanket, sleeping bag, poncho, and lining.

It includes the benefits of all these things but none of their weaknesses. It is light and warm thanks to its filling with advanced Climashield Apex® insulation with a weight of 67g/m2. To turn the Reversible Swagman Roll® into a sleeping bag, zip up the edges. Also, it creates a set with our Poncho U.S. Model. Optionally, you can fasten the waist with buckles, and the material will be closer to the body, like an emergency jacket. Reversible Swagman Roll® is perfect for camping, in the car, or as part of the equipment of the BOB escape backpack.

This version of our classic Swagman Roll® poncho has an additional feature: it is double-sided, so you can better adapt your look to your surroundings. Features:

- double-sided,
- insulated hood,
- small dimensions after folding,
- large zipped pocket on the front
