## Description

Camouflage anorak jacket

So far, we have offered our anorak jackets in civilian colors. This time, we introduce the upgraded camouflage version. The Anorak Tracer is based on the Anorak Woodsman jacket but comes in several camouflage patterns for tactical operations. The material on the back is the same as the rest of the jacket - not softshell like in the Woodsman. Additionally, we added shoulder and front pockets, as well as more adjustment points.

Anorak as a military jacket

Considering that the needs of civilians and soldiers are often different, we adapted our jacket for military operations. The Anorak Tracer is made entirely of one material, without a softshell on the back. This way, the entire jacket is covered in the same camouflage, improving concealment capability. The lack of softshell is compensated for by side zippers that open fully, allowing for adjustable ventilation according to one's needs, and making the anorak easier to wear. Thus, the Anorak Tracer jacket can serve as a substitute for a combat shirt or uniform. The loose oversized fit means the jacket can also be worn over a fleece or a light jacket (e.g., Wolfhound Hoodie), allowing for wearing the necessary camouflage regardless of the color of the clothing underneath.

Unisex, meaning universal

The Anorak Tracer jacket is our first unisex product, meaning its features are not assigned to either women's or men's clothing. In this case, it's about a loose fit that doesn't emphasize broad shoulders or accentuate the waist - it's a universal, not limiting choice. The ability to adjust the product to the body shape is provided by several adjustment points: on the sides of the hood, at the bottom of the jacket, and the waist. This is a

great convenience for users who, when buying a unisex product, don't have to think about the cut, as it will always fit. Just choose the right size. Unisex sizing - how to choose your size?

The sizes listed in the table will refer to the product, not body measurement, and will be the equivalent of men's sizing. To buy a product using women's sizing, simply choose a product one size smaller (e.g., women's M is men's S). This way, everyone can find the right size for themselves.

Thoughtful pockets

Our Anorak Tracer has a total of eight pockets. Two zippered shoulder pockets will come in handy when wearing a vest that covers the front pockets. These, in turn, consist of a large main chamber with three pockets inside and one on top. The latter can fit a compass, for example, something good to have at hand during service. Additionally, hands can be kept in the pass-through pocket located under the main chamber of the jacket, close to the body, where they can be warmed or used to store items like gloves.

## Features

- Full-length side vents
- Loose, oversize fit
- Multiple adjustment points
- Unisex sizing
- 8 pockets
