Description

The Traveler Folding Chair is much more than just a tourist seat. We're selling it in a set with a set of rubber round caps stabilizing the legs of the chair, so you can use it in various conditions and surfaces. It was designed for the shooting range, so there are also tactical solutions. Two nylon mesh pockets are enough to carry the necessary items with you. The smaller one will hold a water bottle or thermos, and the larger one will hold a notebook for the results, a book, or a tablet.

The seat material is made of solid and puncture-resistant Cordura 500D, which has been the right balance between lightness and durability for years. The Traveler Folding Chair also has a durable aluminum frame, and when folded, it takes up little space in the cover included in the set.
