Description

Helle Gaupe offers more than just good looks. It is also one of the most classic of our mid-size knives and a real workhorse, thanks to its well-shaped 108 mm (4,25 inch) blade. A great carving knife for most tasks on your adventures.

Named after the Norwegian name for Lynx, this knife has somewhat the same character. Really beautiful to look at and powerful when it comes to its performance. The Gaupe features a classic Scandinavian shape with a small finger guard, and a handle well shaped by hand for a secure grip for medium size hands.

The curly birch handle has been sanded to a satin finish and securely fastened to the stick tang blade of triple laminated stainless steel.

The Gaupe knife comes with a traditional sheath of high-quality leather.

Weight incl. sheath	162 g / 5.71 oz
