Description

Hepp First Aid Dressing – Sterile Compress 10 × 12 cm (DIN 13151-G)

The **Hepp First Aid Dressing 92200** is a sterile wound care solution designed for fast and hygienic treatment of **small to medium-sized injuries**. It features an integrated **10 × 12 cm absorbent compress**, making it an essential component of any first aid kit.

Reliable First Aid for Everyday and Emergency Use

This dressing is manufactured according to the **DIN 13151-G standard**, ensuring compliance with widely used European first aid requirements. It is suitable for use in workplaces, vehicles, outdoor activities, and emergency situations.

- Sterile dressing for safe wound coverage
- Suitable for small to medium wounds
- Individually packed for hygiene and convenience
- Ready to use in emergency situations

Comfortable and Absorbent Material

ORDER CONFIRMATION

The compress is made from a combination of **polypropylene and viscose**, providing high absorbency while remaining soft and comfortable on the skin. The flexible structure adapts to the wound area, ensuring effective coverage and protection.

- Soft nonwoven material for comfort
- High absorption capacity
- Adapts to wound shape
- Helps maintain a clean wound environment

Applications

- First aid kits (home, workplace, vehicle)
- Outdoor and tactical use
- Emergency response and field care
- Basic wound treatment and protection
