Description

Bad-tasting or foul-smelling water is tough to swallow, literally. But hydration is life. This adapter with an activated carbon cartridge makes sure your widemouth bottle is faithfully filled with clean, refreshing, crisp water – so pure tasting and chemical free you'll want to drink even more. With a replaceable carbon insert, that's no problem. Please note: The hose pictured is not included.

USE

Attach directly to the end of the outlet hose. When filling in the activated carbon, fine dust is formed. Flush out with the first litre of water.

Quick Facts

- Effective against bad taste
- For solo use
- Suitable for small groups up to 3 people
- Suitable for extremely dirty water
- For more frequent use
- Lightweight and portable for on-the-go adventures
- Technology: Activated carbon granules
- Lightweight and portable for on-the-go adventures
- Effect: Reduces chemicals and improves taste and odour of filtered
