Description

Support is multifunctional and allows you to either:

- Cook fast-cooking items like Rice, Oatmeal, Noodles, Soup etc. over the chimney of your kettle, while your kettle boils.
- Use it to level uneven ground under the fire-base or simply to eliminate scorch marks to lawns, timber decking & picnic tables. Simply flip upside down and use under the fire-base of the kettle. When used underneath, the support will remain cool to touch while the kettle above it boils.

Note: If cooking on top using the support, the Kettle must always be FULL WITH WATER. Never use the Kettle without water nor allow it to boil dry as it will overheat the inner chimney and may ruin the Kettle.

Flat Packs for easy storage.

Made From Stainless Steel.

Additional Information

Diameter

No

Display Weight

0.18 lbs / 0.08 kg
