### Description

#### **KHS Firestarter with H3 Tritium Gas Light Source, Grey**

The KHS Firestarter is a rugged, high-performance tool for igniting fires in challenging conditions, featuring an integrated H3 tritium gas light source for visibility in low light. This firestarter generates sparks at extremely high temperatures, reaching over 2000°C, using a built-in Auermetall rod and a premium ceramic striker.

#### **Features**

- Durable aluminum casing, available in multiple colors
- High-performance Auermetall II rod for bright sparks
- Equipped with a ceramic blade to produce sparks through friction
- H3 Trigalight for permanent glow without the need for charging or batteries
- Weather-resistant and ideal for use in wet conditions
- Can be used easily with gloves
- Comes with a keyring for convenient attachment
- KHS logo laser-engraved on the casing

### H3 Trigalight Technology

This product features H3 Trigalights®, which are sealed glass tubes filled with tritium gas. The tritium gas illuminates the phosphor-coated inside of the tube, creating a continuous glow without needing exposure to light or batteries, providing consistent visibility in darkness.

### Specifications

- **Material:** Anodized aluminum casing, Auermetall II rod
- **Dimensions:** 70 mm length, 9 mm diameter
- **Weight:** 12 g

**Brand Country:** Germany
