Description

Improve tool performance with DMT's easy-to-use Dia-Paste™ Diamond Compound. A light application will create a highly polished, mirror finish, reducing tool friction for a sharper, stronger edge allowing more use between sharpening. Apply oil-based compound to flat surface; using precise angle control, sharpen tool against the compound to achieve desired results. Packaged in a convenient 2-gram syringe. Choose from 1,3 or 6 micron compounds.

Grit Descriptions:

- Copper coded (6 micron / 4000 mesh) removes scratches with light pressure polishing action.
- Yellow coded (3 micron / 8000 mesh) for a glossy bevel edge.
- Gray coded (1 micron / 15000 mesh) for the ultimate polished mirror bevel edge.
