Description

LensoLux 1-part off-set full assembly for 21.5 mm Weaver/Picatinny rail - the optimal connection between your weapon and optics.

This extremely stable cantilever mount offers flexible adaptation to the needs of your optics and your weapon:

1. The extraordinary design allows rifle scope assembly even on shorter rails in order to obtain a sufficient eye relief.
2. The included insertion rings can reduce the inner diameter of the rings from 30 mm to 25.4 mm (1 inch).

The 4-fold screwing ensures high-strength hold.

Assembly height: 40 mm to the middle of the ring.

Total length: 140 mm

Length rail mount: 75 mm

Our mounts are technically mature and known for the special price / performance ratio. Made of high-strength aluminum and protected against corrosion by a matt black anodization.

The delivery includes 2 Allen-wrenches.

LENSOLUX brand

The LENSOLUX brand was founded by German company Simbatec GmbH in 2005 and has stood for high quality optics ever since. Whether for hunting, for sport or for your leisure time - with us you will find the right product that meets your expectations.
