Description

LENSOLUX 1-piece convertible full mount for riflescope to 11 mm or 22 mm prism rail - the optimum connection between weapon and optics

This new assembly offers a completely flexible adaptation to the needs of your optics and your weapon:

1. Due to the supplied inserts, the inner diameter of the rings of 30 mm can be reduced to 25.4 mm (1 inch).
2. The laterally screwed guides can be easily adapted to a 11 mm or 22 mm prism rail. By unscrewing / horizontal rotation / screwing, the mounting changes to the desired rail width.

3-fold screw connection on each page ensures high-strength hold. Mounting height: 25 mm to the middle of the ring. Mounting length 100 mm.

Our mounts are technically mature and known for the special price / performance ratio. Made of high-strength aluminum and protected against corrosion by a matt black anodization.

Delivery includes allen mounting key.

LENSOLUX brand

The LENSOLUX brand was founded by German company Simbatec GmbH in 2005 and
