## Description

LENSOLUX lightweight 2-piece mounting for riflescope on prism-rail - the optimum combination of gun and optics

Our mountings are sophisticated and well-known for the special price / performance ratio. Made of high-strength aluminum and protected by a matt black coating against corrosion.

High-quality, lightweight and precise rail mounting for 11 mm prism rail with ring diameter 25.4 mm (1 inch). Mounting height: 21 mm to ring center.

Particularly stable by four socket screws and grip inserts in each mountingpart. We recommend the use of the LENSOLUX Shock-Ex Stopper no. 19200, provided that a corresponding bore is present in the sleeve of the weapon. Thus, the scope no longer slips through the recoil and jarring blow to the back.

The delivery includes mounting Allen key. Brand country - Germany.
