Description

LENSOLUX RedDot 1 x 22 x 33 - quality reflex sight in **semi-open design with 4 different illuminated reticles**.

This sight is specifically made for situations where spontaneous and instantaneous shooting is required. This reflex sight allows you to shoot at moving targets even in the smallest field of view. You can keep both eyes open and the fine preselectable illuminated reticles will help you find the target intuitively.

4 different reticles selectable (thin dot, thicker dot, fine cross and circle with dot), 7-fold dimmable. 1x magnification, view diameter 22 x 33 mm.

Housing 82 mm long made of sturdy aluminum, matt black coated. With 21.5 mm Weaver mount.

All our optics are tested for <1.5 g. In this way, we guarantee shooting strength for every large ball caliber.

Delivery includes protective cap, description, cleaning cloth and spare battery CR 2032. Technical data see next tab. A users manual can be found [here](#).
