## Description

The PFC-free Lowa Active Creme is a highly developed care shoe cream for footwear with Tex and leather materials, which cares for and impregnates the shoe and maintains the breathability of the membrane. The leather gets a new shine and has a water-repellent effect without closing the leather pores. In this way, shoes can prove themselves climate-regulating even in the long term under extreme conditions.

- Two sizes: 20 and 75 ml
- Color: clear

Made in Germany.
