Description

The certified version of the mission multi-talent now also for women: With the Z-8S GTX C, LOWA offers a robust shoe that impresses with its functionality and low weight. It is perfectly adapted to missions in demanding terrain and marches with medium-heavy luggage. This suitability is also underlined by the use-optimized rubber compound and profiling of the sole. The heat and cold insulating sole complex offers slip, oil and fuel resistant properties and is resistant to contact heat. The mid-height upper made of durable suede provides optimum support and hold, while the durable PU material of the sole provides very good cushioning and step stability thanks to different degrees of hardness. Optimal foot climate even during sweaty activity is guaranteed by the lining with GORE-TEX membrane. The Z-8S GTX C is also antistatic.
